

In February, the Border Patrol encountered roughly 100,000 aliens illegally crossing our border. That is about the size of South Bend, Indiana. By March, that number had grown to over 170,000. That is about the size of Salem, Oregon. Last month, the number reached nearly 180,000, the population of Providence, Rhode Island, a 900 percent increase over April of last year.

Thirty-eight percent are being released into our country. In April, ICE deportations fell to their lowest number in history. Felons that the law requires to be deported are instead deliberately being released into our neighborhoods.

In the last 2 months, I joined delegations led by Congressmen JORDAN and BIGGS across the southern border. In the Rio Grande Valley sector, we watched one night as hundreds of aliens from Central America illegally crossed our border with impunity and entered a Disneyland-style queue. After a brief interview, groups in the company of small children were dropped off at transportation hubs to be taken anywhere in the United States they wanted to go without even being given a notice to appear in court.

Unaccompanied minors were taken to a holding facility where they were placed in cattle pens. One unit designed for 33 people had over 500 in it. After a few days, they were transferred to HHS facilities.

No effort is made to safely return them to their homes. Every effort is made to place them in the United States, often with family or friends who are themselves here illegally.

The President just transferred \$2 billion to accommodate this flood that he has created, taken from funds Congress appropriated to rebuild our emergency medical reserve and fund COVID testing. Simply stated, Americans last.

In the San Diego, El Centro, and Yuma sectors, we saw the nearly completed border wall built by the Trump administration made useless because of small construction gaps that can't be filled because Mr. Biden has forbidden it. Aliens just calmly walk through them.

We saw one group taken into custody from Romania. Another group of about 20 were from Cuba, Russia, and Armenia. From all over the world, people are flying into Mexico on tourist visas, making their way to border towns, and then walking through the gaps to enter the United States illegally.

In California, one officer told us their orders were to process as many illegals into the country as fast as possible. From its polling, Gallup estimates there are 42 million people now living in Latin America and the Caribbean alone who intend to come to the United States if they can. And now they are.

We are witnessing the beginning of a mass migration of historic proportions, one that no civilization in human history has ever survived. One Border Patrol officer warned us that every com-

munity in America is about to become a border town. Every American will feel it as classrooms are filled with non-English speaking students; as gangs proliferate; as criminal illegal aliens are released in our communities; as hospital emergency rooms are packed with illegals demanding basic medical care; and as a desperate labor market is flooded with low-wage illegal labor, meaning lower wages and fewer opportunities for working Americans.

This is not accidental. This administration is pursuing a deliberate policy to fundamentally change the culture, electorate, and founding principles of our Nation. It is working, and it will continue as long as the people responsible for it remain in public office.

History is littered with the ruins of nations that fail to control their borders. Whether ours soon joins them depends on Americans taking back their government before it is too late.

#### REMEMBERING THE LIFE OF DR. SAMUEL MAGEE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. JOYCE) for 5 minutes.

Mr. JOYCE of Pennsylvania. Mr. Speaker, I rise today with great sadness to remember the life of my friend, Dr. Sam Magee, who unexpectedly passed away this past weekend.

An exemplary surgeon, Dr. Magee dedicated his life to serving his patients and our Blair County community.

Sam, as the son of an Altoona surgeon, proudly carried forth his family tradition. Most recently, Dr. Magee cared for American veterans as the chief of staff of the James E. Van Zandt VA Medical Center. In this new role, Dr. Magee was an instrumental partner in the launch of my Home-grown Health Care initiative, which aims to reverse the doctor shortage in rural communities.

Dr. Sam Magee was a champion for solutions to tough problems. Together, we shared a mission to improve Pennsylvanians' access to quality healthcare, regardless of ZIP Code.

In addition to his work at the VA, Dr. Magee spent more than 35 years practicing in Altoona, Pennsylvania, saving lives and improving our local healthcare. My family and I personally came to experience his great skills.

As both a fellow Altoona native, and Penn State and Temple Medical School graduates, Dr. Magee and I shared so much in common. More than a colleague, I considered him a very dear friend.

As we remember his life and his legacy, I also give thanks for his meaningful contributions to his patients, to our community, and to our medical profession. Even in sorrow, we celebrate Dr. Magee's life and his indelible contributions to the world.

I extend my deepest sympathy to his wife, Bunny; their children, Rich and

Katie, along with their spouses, Desiree and Michael; their beloved grandchildren; and their extended family.

Additionally, I extend my condolences to Dr. Magee's many patients and to the veteran community that he served with such dedication. This is a profound loss for our medical community, our veteran community, and our community at large.

#### HONORING THE INCREDIBLE LIFE OF ARNOLD E. PERL

The SPEAKER pro tempore. The Chair recognizes the gentleman from Tennessee (Mr. KUSTOFF) for 5 minutes.

Mr. KUSTOFF. Mr. Speaker, today, I rise in the memory of my friend and a great Memphian, Arnold Perl.

Arnold was known as a devoted husband, father, grandfather, friend, and strong advocate. While Arnold Perl was born in Texas and raised in Chicago, Memphis was Arnold's true home. He earned his undergraduate and law degrees from the University of Illinois and, in 1968, moved to Tennessee. Memphis remained his adopted city until his passing on May 4 of this year.

After he came to Memphis, Arnold founded his own law firm, Young & Perl, a law firm focusing on labor law and labor-management relations. Arnold later served as a member of the well-known Memphis law firm Glankler Brown, where he represented some of the biggest Fortune 500 companies.

□ 1015

Arnold also argued cases before numerous State and Federal courts, the U.S. Court of Appeals, and the United States Supreme Court.

As a lawyer, Arnold was sought after for his impressive skills, his expertise, and his extensive knowledge of the rule of law. Since 1983, he was listed in each edition of *The Best Lawyers in America* and even served on its advisory board.

Without a doubt, Arnold was an extremely accomplished lawyer, but his passions went beyond the law.

For over 30 years, Arnold served as a strong and committed member of the Memphis-Shelby County Airport Authority. For 16 of those years, from 1996–2012, he was its chairman.

Through his leadership, Arnold played a vital role in making the Memphis International Airport into one of the top hubs in the world. Working in conjunction with FedEx, Arnold helped the Memphis airport become the world's largest cargo airport.

He also facilitated the relocation of the Tennessee Air National Guard's headquarters, which helped promote growth for Memphis.

Arnold was chairman of the New Arena Public Building Authority, where he oversaw the development of the FedExForum, the home of the Memphis Grizzlies and the Memphis Tigers.

This was a huge accomplishment for Memphis, as it brought great economic development and unity to the community.

During its construction, Arnold's mantra was to build the facility on time and on budget. Indeed, the FedExForum was built in 3 years and on budget.

Most importantly, Arnold was a dedicated member of the Memphis Jewish community and was devoted to his faith. He served as the 45th president of Temple Israel in Memphis, from 2006–2009.

Arnold was passionate in his advocacy for Israel. In 1983, he and his wife, Mary Lynn, were two of the founding members of the AIPAC chapter in Memphis. Arnold was devoted to educating people on the importance of a strong U.S.-Israel relationship.

Ultimately, Arnold was not only a gifted lawyer; he was a true civic giant, a fierce advocate, a faithful individual, and a loving family man. He worked tirelessly to make Memphis a better place for all to live.

His two daughters, Stephanie and Laurie; and his two sons-in-law, Jeff and Jonathan, who he saw more as sons, said that their dad followed four pillars that he adopted from one of his mentors: Family, faith, professionalism, and community.

Roberta and I extend our deepest sympathies to Mary Lynn, his loving wife of 55 years; their daughters, Stephanie and Laurie; his sons-in-law, Jeff and Jonathan; his six grandchildren, and the rest of his family and friends.

May his memory be a blessing.

#### HONORING MARY ALICE WORKMAN

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. RODNEY DAVIS) for 5 minutes.

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to honor my wife's grandmother, Mary Alice Workman, who, sadly, passed away in late January at the age of 98.

Mary Alice was born in Decatur. She married her husband, Richard, in 1941. She was a member of the First United Methodist Church in Assumption, Illinois.

Mary Alice will be remembered for her kindheartedness, for the love of her large family, and for living life to the fullest.

Mary Alice is now resting peacefully with her husband, Richard; and her favorite dog, Leo.

It is a sad loss for our family and everyone who had the pleasure of getting to know her. It is always difficult saying good-bye to someone we love and appreciate, especially when you couldn't see them in person before they passed.

Shannon, Toryn, Griffin, Clark, and I send our thoughts and prayers to her children, Kenneth, Kathleen, and Nancy; and their families; and her

other grandchildren, Randy, Kelly, Curt, Ric; and the rest of her great-grandchildren, Trenee, Ryan, Ross, Connor, Sydney, Grace, and Payton.

Mary Alice, may you rest in peace.

#### HONORING TREVOR HERDERHORST

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to honor Trevor Herderhorst of Highland, Illinois, who died on April 25 after a courageous fight with cancer.

Trevor began his dream of becoming a firefighter in 2005 with the Cahokia Volunteer Fire Department. Later, he graduated from SIUC with a degree in fire service management, and went on to serve as a Granite City firefighter. In 2018, Trevor started his dream job with the City of Champaign Fire Department in its Operations Division. Trevor loved being a firefighter and was a proud professional, always striving to hone his skills to save lives.

Those who knew Trevor will remember him for his inspirational positivity and his passion for making the world around him a better place and his love for baseball.

My prayers are with Trevor's wife, Tiffany; his children, Chase and Olivia; and all his friends and family spread throughout the communities he made better with his presence. He will truly be missed.

#### RECOGNIZING KNIGHT'S ACTION PARK

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to recognize Knight's Action Park in Springfield, Illinois, which is celebrating 91 years of business this year.

It was founded in 1930 as a golf driving range by George Knight, Sr., after he spent a few years touring the country as the caddy for four-time U.S. Open champion Willie Anderson.

George Knight, Jr., and his wife, Audrey, started an archery range in 1951, and later opened the family entertainment center. Knight's Action Park spans 60 acres and three generations of the Knight family. Over the years, it has added a water park, pub, and drive-in theater.

Like many businesses that rely on large attendance, they faced challenges amidst the coronavirus pandemic. They credit the Paycheck Protection Program for allowing them to survive 2020, so they can continue to provide jobs for 200 seasonal workers, 10 permanent staff, and family fun for me, my family, and my constituents. Hopefully, they will be able to fully reopen soon.

Again, congratulations to the Knights on their 91st anniversary, and I wish them all the best in the years to come.

#### RECOGNIZING DR. LARRY DIETZ

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to recognize my friend, Dr. Larry Dietz, the 19th president of Illinois State University, who will retire on June 30 after a remarkable 50-year academic career.

Dr. Dietz began his career at ISU in 2011 as the Vice President for Student Affairs. In 2014, he was appointed Illi-

nois State's 19th president. Prior to coming to ISU, he served as Vice Chancellor of Student Affairs at Southern Illinois University Carbondale, and he held various other leadership positions at the University of Missouri and Iowa State University.

President Dietz's passion for higher education has taken an already highly esteemed ISU to new heights. With his leadership, the university is continually ranked among the top in the Nation for high graduation and retention rates and low student loan default rates. He leaves ISU on a footing that is full of potential.

I have had the pleasure of working with Larry since he became president. A personal testament I have to his success is the fact that all three of my children attend Illinois State University, the institution he leads.

Congratulations on your retirement, Mr. President.

#### PAYING TRIBUTE TO FRANK FRYBURG

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. SMUCKER) for 5 minutes.

Mr. SMUCKER. Mr. Speaker, I rise today to honor and to pay tribute to a community leader, a veteran, and a vocal advocate, Mr. Frank Fryburg, who passed away last week at the age of 94.

Those of us who had the pleasure to know Frank know that he lived a life of service to others. Frank joined the Navy in 1944 as an electronic technician, and went on to serve 20 years in the Navy Reserves. Frank was a graduate of Penn State University, earning his bachelor's degree in physics on the GI Bill. He later earned his MBA from the University of Pennsylvania's Wharton School.

Frank served his community for a decade as a commissioner in Manheim Township in Lancaster County. He was an active member of his church, a national leader of his chosen fraternity, and worked to support countless community organizations over the years.

With Frank, you always knew where you stood. He always shared his opinions with you, and they were very well-thought out. He was recently recognized as one of the most prolific letter writers to the editor in the local newspaper.

Frank Fryburg was a man of exceptional character, of boundless energy and determination, a true servant leader, and a community advocate.

Frank is survived by his 6 children, 13 grandchildren, and 20 great-grandchildren.

We will miss him. We wish those who are grieving, comfort. We give thanks for the opportunity to know Frank, who positively impacted so many people during his 94 years.

#### THANKING ALEX MUNRO

Mr. SMUCKER. Mr. Speaker, I rise to give thanks to someone who has positively impacted the lives of a generation of students and untold generations
